

Kay Wentworth

The first quilt is throw size, 60 x 70" for a grandson's birthday. The second quilt is my monthly art quilt 18 x 24" called "heart disease". It is a human heart on top of a Valentine's Chocolate box. It says you're number one because heart disease is the number one killer of people in the world. Annually 655,000 people die of heart disease in the US, versus 500,000 that have died of Covid.

Patty McClearn

"Boogie Girls" a birthday present for my California sister. Embroidered panels with free motion quilting.
