

# Bramble Workshop

By Jill Finley

Finished Size: 60" x 60"

This workshop will teach applique and foundation piecing:

In applique, you will learn Jill's applique method, which gives beautiful results, even for the beginner. You will learn a prepared-edge method, rounded edges, sharp points, perfect circles, making and shaping bias tape vines, shadowing. In addition Jill will teach her applique stitching method so that no stitches show and you develop the beautiful puff or lift on each piece.

In Foundation Piecing, you will learn a technique that gives perfect results, and allows you to piece unusual angles. With Jill's FPP method you don't sew through the paper, so there is no paper to remove! Jill has a new ruler that makes it easy and quick.
